In order to make compliance of the additized Gasoline at 11% to meet EPA Federal Regulations; Gulftech Marketing LP will still discount the product to Alexander Oil Company at the .03 cents per gallon.

as of 12-13-11 at 12:00 pm the gasoline additive will be blended at **11%** so that Gulftech Marketing is in compliance with the 40 CFR Part 80 of the Regulations of Fuels and Fuel Additive. All Gasoline Additive blending at GreenHunter will be at **11%** until further notice. Please make any necessary changes to paper work so that the Driver's *do not over blend*.

Starting February 15th 2012 the Gulftex additive will go to 10%. The Plus will not meet the minimum 92octane to be classified as Super when blended at 10%.

Mr. Jud Alexander
Alexander Trucking Company
814 West Shaw
Pasadena, TX 77501

Dear Jud:

We will continue with the gasoline additive at 13% on all loads marked for additive.

Sincerely,

James L Ahern Jr
